Special 9-Hour Medical Astrology Workshop on CD - \$39.95

(Includes Workshop Handouts E-mailed as PDF Files)

NCGR Richmond VA Chapter - Fall 2009 "Two-Day Medical Astrology Workshop" (set of 8 CDs)

Using the birth chart for medical diagnosis has been an astrological tradition for centuries. Mr Blaschke shares his research, techniques and insights into Medical Astrological interpretation, including his own cancer experience. The sign, house and planetary rulerships for the internal organs, whole body systems, and the exterior parts of the body are taught. Learn how to perceive correspondences between the signs, planets and houses with specific illness or disease. Constitutional analysis, surgery timing, Oriental Medicine correlations with emotional states, and the body-mind connection are also included.

Understanding basic chart factors such as planetary strength or weakness, the chart ruler, stressfully aspected planets in the 6th or 12th houses, midpoint dynamics, squares or oppositions to the Ascendant, and aspect configurations such as T-crosses and Yods with the Ascendant as the apex are considered necessary for helping your clients with their medical concerns.

Solar return charts, the often overlooked house transits, and secondary progressions affecting the health are illustrated with several case histories. Many humorous anecdotes are shared by Mr Blaschke in this comprehensive workshop.
